

Headshot Proof Selection

Included are the proofs from your recent Season Moore Photography photo session. All images have been retouched; your image selection(s) will get final retouching (eyes brightened, teeth whitened, etc). Please mention any additional edits you prefer, extensive retouching may require an additional fee.

Images can be edited for a closer crop so make final selections based on pose and expression vs. the overall crop. Please be in touch if you need help in making final choices or have any questions at all.

Thank you for choosing us as your photographer, you look fabulous!
